

Anti-Trust Management

Competition and Antitrust laws are intended to ensure free and fair competition between companies on the market. Their violation may result in important fines and damages both for the individuals and the enterprise involved.

In compliance with FIDI FAIM requirements, Giovaruscio Moving Group is fully committed to comply with the FIDI Anti-Trust Charter that fights against Cartels and unfair competition and expects its employees and business partners to abide by the Italian Legislation and work closely with other Anti-Trust laws in the countries where we do business. In particular, Giovaruscio Moving Group undertakes not to participate in cartels fixing prices, agreements on quotas, production or sales, or more generally, any unfair practices which impede free competition, in particular those intending to oust a competitor from the market or restrict access by new competitors to markets by unlawful means. Giovaruscio Moving Group never seeks a competitive advantage through unethical, illegal or unfair practices. We are determined to support the fight against cartels, which restrict competition among suppliers to the detriment of customers. This policy applies to individual employees, agents, suppliers, consultants or any other people or bodies associated with Giovaruscio Moving Group, or any of its subsidiaries and employees.

The signed FIDI Anti-Trust Charter has been communicated to the company's internal personnel (staff) by management by demonstrating top-level commitment.
